## SURFACE-TO-AIR MISSILE ACTIVITY NEAR CAIRO, EGYPT

The following surface-to-air missile activity near Cairo, Egypt, has been identified on

25X1D

An SA-2 SAM site is located at approximately 30-20-50N 31-28-40E, 22 nautical miles (nm) north-northeast of Cairo. The site is in a mid- to-late stage of construction and has a link configuration (Figure 1). A support area,

in an early stage of construction, is approximately 2,000 feet northwest of the site. This SAM site was reported by

25X1C  
25X1C

A SAM support facility, probably complete, is located at 30-04-10N 31-22-30E, 7 nm east of Cairo (Figure 2).
